

We believe your senior portraits should be as unique as you.

At Hampton Roads Photography, we pride ourselves in not using the exact same series of props, drops or locations for every senior. Whether we head to the Botanical Gardens, the beach, to Norfolk for a more urban feel or to your own back yard, we try to match the setting to reflect your personality.

"I looked at pictures my friends had taken at _____ and all their pictures looked the same. I saw what you did for my friend, Erica and they were *all so different*. I didn't want my senior portraits to look like everyone else's."

You are unique. Among all the people on the face of the earth, nobody is exactly like you. No one has your life experiences, your hopes, your dreams, your passions. We understand this, and we think it's important you're photographed in a way which reflects your individuality.

It doesn't take much skill any more to *take* a picture of what someone looks like. We strive never to just *take* a photo but to *create* one of a kind, senior portraits.

Here's how we do it: Before we have you step in front of the camera, we set up a consultation. This meeting usually lasts from thirty minutes to an hour and is the most important element ensuring the success of your photo session with us. Because it's during this time we get to know you as a person. After you tell us what makes you tick, we'll begin develop a plan on how best to capture you, your personality, your style.

At Hampton Roads Photography, we believe there is so much more to people than simply how they look. Of course, everyone wants to look *good* but it's the inner you we want to draw out and capture - Your personality, your style - *who* you are not just *what* you look like.

Our goal is to have your family and friends see the results of your photo session and say, "That's so you"!

Call us today to schedule your consultation. 757-499-8708
